Except for Saline Township, all of the user names are constructed the same:

WASMayCount-XYZ

where XYZ are the first three letters of the township name. There are no spaces in the username, just a dash. Usernames are not case sensitive.

The password will be sent separately.

All individuals shall use eBird to record their observations.

Each birding location shall have its own eBird list; a catchall list for incidental/road birds may also be included.

All lists shall be shared with the appropriate Twp list, indicated by the username on this document
